Developer Tools:

VS Code, Google Cloud Platform, Cursor, Sublime, Figma, Git, Firebase

EXPERIENCES

AdGlobal360 India Pvt. Ltd | SDE2

2022 – Present | Gurgaon, India

- **Owned major API components** for creatives automation and campaign-level setup using **Meta APIs and AI-based editing tools**, improving campaign deployment efficiency by **40%**.
- **Implemented an approval workflow and cloud repository** for campaign assets, reducing content turnaround time by **50%**.
- **Automated repetitive processes** across campaigns, saving over **80 hours per month** and increasing team productivity.
- **Enhanced campaign management tools**, supporting **5x more campaigns and users** while maintaining high-quality standards and compliance.

AdGlobal360 India Pvt. Ltd | SDE

Gurgaon, India

- **Spearheaded the adoption of AGILE practices** for software development, facilitating daily stand-ups and sprint planning sessions, **resulted in a 25% reduction** in project turnaround time and improved team accountability.
- Transformed the application using HTML5, CSS3, JavaScript, Express.js, Node.js, and React.js. Used React.js to develop a **standalone test application** for future framework usage.
- **Used React.js as a framework to create a Single Page Application (SPA)**, binding data to specific views and synchronizing data with the server.
- **Developed interactive React.js components** for a client-side automotive application, enabling real-time data display, user interactions, and seamless integration with backend services.

PROJECTS

CTWA (Click to WhatsApp Account)

- Integrated **Meta WhatsApp Webhook** to handle automated message broadcasting and real-time lead capture through WhatsApp.
- Enabled **campaign setup and management** via WhatsApp, optimizing CPL (Cost Per Lead) and improving lead engagement.
- Delivered measurable **marketing benefits** including faster lead response, higher conversion rates, and streamlined communication workflows.

AlertPulse Dashboard

- Designed and implemented a comprehensive alert system for a real-time data dashboard to monitor and manage critical data events effectively
- Developed dynamic alert thresholds and customizable notification settings to provide timely updates on critical data changes
- Integrated advanced filtering and categorization features, allowing users to prioritize alerts based on severity and relevance, enhancing overall dashboard usability.

ACHIEVEMENTS

- Recognized with multiple **Star Performer Awards** for consistent ownership and high-quality delivery.
- Recognized with company awards for leadership, innovation, and timely delivery of critical releases.
- Solved 500+ coding problems on Codeforces and LeetCode.

EDUCATION

Lovely Professional University

Jalandhar, India

B.Tech in Computer Science & Engineering | 7.8 CGPA
